CONSOLIDATED FINANCIAL STATEMENTS**

Management's Statement of Responsibility for Financial Information

The consolidated financial statements are the responsibility of management and have been prepared in accordance with International Financial Reporting Standards. Where necessary, management has made judgments and estimates of the outcome of events and transactions, with due consideration given to materiality. Management is also responsible for all other information in these consolidated financial statements and for ensuring that this information is consistent, where appropriate, with the information and data included in the consolidated financial statements.

The Company maintains a system of internal controls to provide reasonable assurance as to the reliability of the financial records and safeguarding of its assets. The consolidated financial statements have been audited by the Company's independent auditor, PricewaterhouseCoopers LLP, who has issued their report herein.

The Board of Directors is responsible for overseeing management in the performance of its responsibilities for financial reporting. The Board exercises its responsibilities through the Audit Committee which comprises three independent directors. The Audit Committee meets from time to time with management and the Company's independent auditor to review the financial statements and matters relating to the audit. The Company's independent auditor has full and free access to the Audit Committee. These consolidated financial statements have been reviewed by the Audit Committee, who recommended their approval by the Board of Directors.

Independent auditor's report

To the Shareholders of IBEX Technologies Inc.

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of IBEX Technologies Inc. and its subsidiaries (together, the Company) as at July 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS).

What we have audited

The Company's consolidated financial statements comprise:

- the consolidated statements of financial position as at July 31, 2021 and 2020;
- the consolidated statements of changes in equity for the years then ended;
- the consolidated statements of earnings and comprehensive income for the years then ended;
- the consolidated statements of cash flows for the years then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

PricewaterhouseCoopers LLP/s.r.l./s.e.n.c.r.l.
1250 René-Lévesque Boulevard West, Suite 2500, Montréal, Quebec, Canada H3B 4Y1
T: +1 514 205 5000, F: +1 514 876 1502

"PwC" refers to PricewaterhouseCoopers LLP/s.r.l./s.e.n.c.r.l., an Ontario limited liability partnership.

Other information

Management is responsible for the other information. The other information comprises the Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Michel Larouche.

Notes to Consolidated Financial Statements

1 General information

IBEX Technologies Inc. / Technologies IBEX Inc. (“IBEX” or the “Company”), through its wholly owned subsidiaries, manufactures and markets enzymes for biomedical use. IBEX also manufactures and markets a series of arthritis assays, which are widely used in osteoarthritis research. These consolidated financial statements were authorized for issue by the Board of Directors on November 10, 2021 and were signed on its behalf.

The Company is a public company listed on the TSX Venture Exchange and is incorporated and domiciled in Canada. The address of its registered office is 5485 Paré Street, Suite 100, Montréal, Québec.

2 Summary of significant accounting policies

Basis of presentation

The Company prepares its consolidated financial statements in accordance with generally accepted accounting principles in Canada as set out in the CPA Canada Handbook – Accounting – Part 1, which incorporates International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned Canadian and US subsidiaries, Technologies IBEX R&D Inc., IBEX Pharmaceuticals Inc. (“IBEX Pharma”), IBEX Technologies Corporation and Bio-Research Products Inc. (“BRP”).

Subsidiaries are all entities over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated on the date control ceases. Intercompany transactions and balances between companies are eliminated.

Critical accounting estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to estimates and assumptions include the estimated useful life of assets, the valuation of long-lived assets, and the valuation of tax attributes. It is possible that actual results could differ from those estimates, and such differences could be material. Estimates are reviewed periodically and, as adjustments become necessary, they are reported in the consolidated statement of loss and comprehensive loss in the period in which they become known.

In March 2020, the World Health Organization declared a global pandemic due to the novel coronavirus (COVID-19). The situation is constantly evolving, and the measures put in place are having multiple impacts on local, provincial, national and global economies.

As an “Essential Service” (producing reagents and components for critical care diagnostic tests), IBEX has remained operational.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

The COVID-19 situation has however had an impact on some of our developmental programs which rely heavily on external suppliers, some of which have been closed down as a result of the pandemic. Some of these programs have resumed in the past months as suppliers resumed operations.

As an emerging risk, the duration and full financial effect of the COVID-19 pandemic are unknown, and accordingly estimates of the extent to which the COVID-19 may materially and adversely affect the Corporation are subject to significant uncertainties.

Functional and presentation currency and foreign currency translation

Presentation and functional currency

The financial statements of the Company's subsidiaries are measured using their functional currency, which is the currency of the primary economic environment in which they operate and corresponds to their local currency.

The consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency.

Translation of accounts of foreign subsidiaries

Accounts of foreign subsidiaries that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- i) Assets and liabilities are translated at the closing rate at the reporting date;
- ii) Income and expenses are translated at the average monthly exchange rates; and
- iii) All resulting changes are recognized in other comprehensive income as cumulative translation adjustments.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation when items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation, at each reporting date's exchange rates, of monetary assets and liabilities denominated in foreign currencies, are recognized in the statement of earnings and comprehensive income (loss).

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances with banks and highly liquid short-term investments. The Company considers short-term investments with an original maturity at the date of purchase of three months or less to be cash equivalents.

As at July 31, 2021, cash equivalents include money market funds totalling \$625,000 and bearing interest at a rate of 0.25% (July 31, 2020 – \$625,000 – 0.25%) as well as a GIC of \$300,000 at an interest rate of 0.35% (July 31, 2020 – \$0)

Financial Instruments

The Company determines whether financial assets and financial liabilities are measured at amortized cost or fair value.

(i) Classification

The Company classifies its financial instruments in the following categories: at fair value through profit or loss ("FVTPL"), at fair value through other comprehensive income ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

For other equity instruments, they are also classified as FVTPL unless on the day of acquisition the Company makes an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or the Company has opted to measure them at FVTPL. The following table shows the classification adopted by the Company:

Financial instrument	Classification – IFRS 9
Cash and cash equivalents	Amortized cost
Trade and other receivables	Amortized cost
Trade and other payables	Amortized cost
Long-term debt	Amortized cost
Derivatives	Fair value through earnings or loss

(ii) Measurement

Financial assets at FVTOCI

Elected investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently, they are measured at fair value, with gains and losses recognized in other comprehensive income (loss) without subsequent reclassification to net income.

Financial assets and financial liabilities at amortized cost

Financial assets and financial liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and financial liabilities at FVTPL

Financial assets and financial liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statement of earnings and comprehensive income. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and financial liabilities held at FVTPL are included in the statement of earnings and comprehensive income in the period in which they arise. Where management has opted to recognize a financial liability at FVTPL, any changes associated with the Company's own credit risk will be recognized in the other comprehensive income without subsequent reclassification to net loss.

(iii) Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses. The Company shall recognize in the statement of earnings and comprehensive income, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

For trade receivables, the Company applies the simplified approach which requires expected lifetime losses to be recognized from initial recognition of the receivables.

The Company assumes that there is no significant increase in credit risk for debt-instruments that have a low credit risk.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

(iv) DerecognitionFinancial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in the statement of earnings and comprehensive income. However, gains and losses on derecognition of equity instruments classified as FVTOCI are transferred to the Company's capital.

Financial liabilities

The Company derecognizes financial liabilities only when its obligations under the financial liabilities are discharged, cancelled or expired. Generally, the difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in the statement of earnings and comprehensive income.

(v) Derivatives

All derivative instruments are recorded in the consolidated statement of financial position at fair value at each statement of financial position date. Derivatives may be embedded in other financial instruments (the "host instrument"). Derivatives are treated as separate derivatives if their economic characteristics and risks are not closely related to those of the host instrument, the terms of the derivative are the same as those of a stand-alone derivative, and the combined contract is not measured at fair value. These derivatives are measured at fair value at each statement of financial position date with subsequent changes recognized in net earnings in the period in which the changes arise.

The Company enters into certain contracts for the sale of non-financial items that are denominated in currencies other than the Canadian dollar, the Company's functional currency. In cases where the foreign exchange component is not leveraged and does not contain an option feature and the contract is either denominated in the functional currency of any party to the contract, the non-financial item is routinely denominated in the currency of the contract or the currency of the contract is commonly used in the economic environment in which the transaction takes place, the derivative is considered to be closely related and is not accounted for separately. The fair value of financial instruments is determined using recognized valuation models using observable market-based inputs.

Inventories

Raw materials are measured at the lower of cost or net realizable value. Cost is determined using the average cost method. Net realizable value corresponds to replacement cost in the normal course of business.

Work in process and finished goods are valued at the lower of cost or net realizable value determined on a first-in, first-out basis. Cost of finished goods comprises direct production costs such as raw materials, consumables, utilities, labour and production overheads such as depreciation, maintenance and occupancy costs. Net realizable value is the estimated selling price less applicable selling expenses. If carrying value exceeds net realizable amount, a write-down is recognized. The write-down may be reversed in a subsequent period if the circumstances which caused it no longer exist.

Property, plant and equipment

Property, plant and equipment are carried at historical cost less accumulated depreciation, government assistance and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

The Company adds to the carrying amount of an item of property, plant and equipment the cost of replacing parts of such item when that cost is incurred if the replacement part is expected to provide incremental future benefits to the Company. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged in the consolidated statement of earnings (loss) and comprehensive income (loss) during the period in which they are incurred.

Depreciation is recorded using the straight-line method based on the estimated useful lives of the related assets as follows:

	Term
Machinery and equipment	Varying from 2 to 30 years
Furniture and fixtures	Varying from 2 to 10 years
Leasehold improvements	Varying from 5 to 9 years

Assets under construction are capitalized and are depreciated when ready to use.

Intangible assets

Intangible assets comprise software which are amortized using the straight-line method over a period of 4 to 5 years.

Impairment of long-lived assets

The Company assesses the carrying value of its long-lived assets, which comprise property, plant and equipment, for impairment when events or changed circumstances indicate that the carrying value may not be recoverable. For the purpose of measuring recoverable amounts, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units or “CGUs”). Recoverable amount is the higher of an asset’s fair value less costs of disposal and value in use (being the present value of the expected future cash flows of the relevant asset or CGU, as determined by management). The amount of impairment loss, if any, is determined as the excess of the carrying value of the assets over their recoverable amount.

Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less or in the normal operating cycle of the business if longer. If not, they are presented as non-current liabilities.

Leases (IFRS 16)

A contract is a lease (or may contain a lease) if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lease liability is recognized at the commencement of the lease term at the present value of the lease payments that are not paid at that date. At the commencement date, a corresponding right-of-use asset is recognized at the amount of the lease liability, adjusted for lease incentives received, retirement costs and initial direct costs. Depreciation is recognized on the right-of-use asset on a straight-line basis over the lease term. Accretion expense is recognized on the lease liability using the effective interest rate method and payments are applied against the lease liability.

Key areas where management has made judgments, estimates, and assumptions related to the application of IFRS 16 include:

- The incremental borrowing rates are based on judgments including economic environment, term, currency, and the underlying risk inherent to the asset. The carrying balance of the right-of-use assets, lease liabilities, and the resulting accretion expense and depreciation expense, may differ due to changes in the market conditions and lease term.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements
July 31, 2021 and 2020

- Lease terms are based on assumptions regarding extension terms that allow for operational flexibility and future market conditions.

Share-based compensation

The Company operates an equity-settled, share-based compensation plan under which the Company receives services from employees as consideration for equity instruments (stock options).

Compensation expense for stock options is included in net earnings, with the offset credited to contributed surplus. Using the fair value method, compensation expense is measured at the grant date and recognized over the vesting period of the stock options. Any consideration paid on exercise of stock options or purchase of stock is credited to share capital.

Share capital

Common shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of direct costs of issuing the equity instruments.

Net earnings per share

Net earnings per share is calculated using the weighted average number of shares outstanding of 24,823,244 as at July 31, 2021 (July 31, 2020 – 24,773,244). The options that are outstanding (note 12) have been considered in the computation of diluted earnings per share; however, these options had no impact on net earnings per share.

Revenue from Contracts with Customers

Revenue is recognized when delivery has occurred and there is no unfulfilled obligation that could affect the customer's acceptance. These criteria are generally met at the time the product is leaving the Company's premises and at that point, control has passed to the customer. Revenue is measured based on the price specified in the Company's Order Confirmation sent to the customer. The Company does not have any multiple-element revenue arrangements.

Cost of sales

Cost of sales comprises the costs of manufactured products. It includes the purchase cost of raw materials, production costs directly related to the manufactured products and production overheads. Production overheads include depreciation of equipment and inventory allocations. Cost of sales also includes a relevant portion of general overheads to the extent that they are directly attributable to bringing the manufactured products to their present condition.

Research and development costs

Research costs are expensed when incurred. Development costs are capitalized as intangible assets when the conditions relating to the commercial and technical feasibility of the project, the ability to allocate the costs reliably and the probability of generating future economic benefits are fulfilled. Development costs are reviewed annually in order to determine whether the criteria for recognition as intangible assets are met.

As at July 31, 2021 and 2020, no such costs have been deferred in the accounts of the Company.

Government assistance relating to research and development activities is reflected as a reduction of net research and development expenditures in these consolidated financial statements as and when it is earned and collectability is reasonably assured. For the years ended July 31, 2021 and 2020, no such amounts have been recorded as a reduction of research and development expenditures.

The recorded investment tax credits are based on management's best estimates of amounts expected to be recovered. The actual investment tax credits allowable are determined by the respective taxation authorities. Accordingly, these amounts may vary from the estimated amounts recorded.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

Income taxes

The tax expense comprises current and deferred tax. When applicable, tax is recognized in the consolidated statement of earnings and comprehensive income.

Current income tax

The current income tax charge is based on the results for the period as adjusted for items that are not taxable or not deductible. Current income tax is calculated using tax rates and laws that were enacted or substantively enacted at the end of each reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. Provisions are established where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax

Deferred income tax is recognized using the asset and liability method on temporary differences arising between the tax basis of assets and liabilities and their carrying amount in the consolidated financial statements. Deferred income tax is determined on a non-discounted basis using tax rates and laws that have been enacted or substantively enacted at the consolidated statement of financial position date and are expected to apply when the deferred income tax assets or liabilities are settled. Deferred income tax assets are recognized only to the extent that it is probable that the assets will be realized. Deferred income tax assets and liabilities are presented as non-current.

Government assistance

Government assistance, other than research and development costs, is recognized when there is reasonable assurance the Company will comply with the conditions of the grant and the collection of the grant is reasonably assured. Unless otherwise specified in the consolidated financial statements, government assistance is presented as “Other income” on the consolidated statement of earnings and comprehensive income.

Accounting policies

New accounting standards, amendments and interpretations issued and effective for the Company beginning on or after August 1, 2020 are as follows:

IAS 1, Presentation of Financial Statements (“IAS 1”), and IAS 8, Accounting Policies, Changes in accounting Estimates and Errors (“IAS 8”)

Definition of Material (Amendments to IAS 1, Presentation of Financial Statements, and to IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors) is intended to make the definition of material in IAS 1 easier to understand and is not intended to alter the underlying concept of materiality in IFRS Standards. The concept of “obscuring” material information with immaterial information has been included as part of the new definition. The threshold for materiality influencing users has been changed from “could influence” to “could reasonably be expected to influence”. The definition of material in IAS 8 has been replaced by a reference to the definition of material in IAS 1.

IAS 1 and IAS 8 are applicable for annual periods beginning on or after January 1, 2020. The Company does not expect any impact in its financial statements upon the amendments of IAS 1 and IAS 8.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

3 Financial instruments

Currency risk

The Company operates internationally, and its sales are mainly contracted in US dollars. A change in the currency exchange rate between the Canadian dollar and the US dollar could have a material effect on its consolidated earnings and comprehensive income, financial position and cash flows.

The Company's objective in managing its foreign currency risk is to minimize its net exposure to foreign currency cash flows by buying, from time to time, forward foreign exchange contracts to hedge a portion of the exposure of its foreign currency cash flows. Foreign exchange contracts will usually have a maturity of less than two years. As at July 31, 2021 and 2020, the Company has no forward foreign exchange contracts outstanding.

The Company does not use forward foreign exchange contracts for speculative purposes. The Company also does not apply hedge accounting, and these derivative contracts are being marked to fair value at every reporting date with changes recorded in the consolidated statement of earnings and comprehensive income as foreign exchange (gain) loss and in the consolidated statement of financial position as trade and other receivables or trade and other payables.

The Company is exposed to foreign currency risk primarily as a result of revenues and expenses denominated in US dollars. Financial instruments denominated in foreign currencies as at July 31, 2021 and July 31, 2020 were as follows:

	July 31, 2021		July 31, 2020	
	CA\$	US\$	CA\$	US\$
Cash and cash equivalents	660,074	529,670	2,344,679	1,749,238
Trade and other receivables	834,869	669,932	672,034	501,368
Trade and other payables	42,100	33,783	23,449	17,494

The impact on the Company's (excluding BRP) financial instruments of a 5% increase in the US dollar exchange rate would be a foreign exchange loss of \$72,642 recorded in net earnings for the year ended July 31, 2021 (July 31, 2020 gain of \$149,663).

Interest rate risk

The Company's interest rate risk was related to the long-term debt. The Company no longer has an interest rate risk since the long term debt was repaid in June 2020.

Credit risk

Financial instruments that potentially subject the Company to credit risk include cash and cash equivalents, as well as trade and other receivables. Cash and cash equivalents consist of bank balances and money market funds maintained at financial institutions with high credit ratings. Therefore, the Company considers the risk of non-performance for cash and cash equivalents to be low.

**IBEX Technologies Inc. / Technologies IBEX Inc.**

Consolidated Financial Statements

July 31, 2021 and 2020

The aging of trade receivables as at July 31, 2021 was as follows:

Trade receivables	<u>\$</u>	<u>%</u>
Current	827,833	93
Past due 31–90 days	59,361	7
Over 90 days	-	-
	<u>887,194</u>	<u>100</u>

The Company's exposure to credit risk for trade receivables for customers with greater than 10% of the total balance was as follows:

	<u>July 31, 2021</u>	<u>July 31, 2020</u>
	<u>%</u>	<u>%</u>
Customer 1	64	66
Customer 2	7	10

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial liabilities when due. The Company's financial liabilities include its trade and other payables presented on the consolidated statement of financial position, which are due within the next 12 months, and long-term debt. The Company manages liquidity risk by maintaining adequate cash balances to discharge its liabilities when due.

The following table details the maturities of the financial liabilities as at July 31, 2021.

	Carrying amount	Contractual cash flows	Less than 1 year	Between 1 and 3 years	Between 3 and 5 years	More than 5 years
	\$	\$	\$	\$	\$	\$
Trade and other payables	940,529	940,529	940,529	-	-	-
Lease liabilities ¹	615,959	675,098	179,067	314,378	74,380	107,273
	<u>1,556,488</u>	<u>1,615,627</u>	<u>1,119,596</u>	<u>314,378</u>	<u>74,380</u>	<u>107,273</u>

1- See Note 7.

Management believes that the Company has sufficient funds to meet its obligations and planned expenditures for the ensuing twelve months as they fall due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period.

Financial instruments

Except for derivatives, the Company has evaluated the fair value of its financial instruments based on the current interest rate environment, related market values and current pricing of financial instruments with comparable terms. The carrying value of its financial instruments is considered to approximate fair value.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

The Company categorizes its financial instruments according to the following three hierarchical levels:

Level 1 – Measurement based on quoted prices (unadjusted) in active markets for identical assets and liabilities;

Level 2 – Valuation techniques based primarily on observable market data; and

Level 3 – Valuation techniques not based primarily on observable market data.

As at July 31, 2021 and 2020, there are no financial instruments that were accounted for using fair value.

4 Trade and other receivables

	July 31, 2021	July 31, 2020
	\$	\$
Trade	887,194	746,589
Canada Emergency Wage Subsidy (Note 9)	-	125,762
Sales tax	28,751	4,711
Other receivable	38,843	-
	954,788	877,062

5 Inventories

	July 31, 2021	July 31, 2020
	\$	\$
Finished goods – Enzymes	283,068	201,694
Finished goods – Arthritis diagnostic kits	35,589	31,024
	318,657	232,718

During the year ended July 31, 2021, the Company wrote off inventories that had expired in the amount of \$ 57,272 (July 31, 2020 - \$101,545). The related expense is included in the Cost of sales.

2- The Company has met all requirements under the Canada Emergency Wage and Rent Subsidies (CEWS & CERS) and has included a total of \$277,774 in other income. (July 31, 2020 - \$125,762).

9 Key management compensation

Key management includes the Company's executives and members of the Board of Directors. Compensation awarded to key management included:

	July 31, 2021 \$	July 31, 2020 \$
Salaries, share-based compensation and employee benefits	1,191,277	1,037,741

As of July 31, 2021, an amount of \$160,414 is due to key management in respect of the Company's profit sharing plan (July 31, 2020 – \$151,168).

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

10 Income taxes

a) Income tax expense (recovery)

	July 31, 2021	July 31, 2020
	\$	\$
Current	-	-
Deferred	207,678	316,373
Income tax expense (recovery)	207,678	316,373

b) Effective tax rate

The Company's effective income tax rate differs from the statutory federal and provincial income tax rate in Canada.

This difference arises from the following:

	July 31, 2021	July 31, 2020
	%	%
Combined statutory tax rate	26.50	26.54
Unrecognized tax benefits	3.01	5.28
Expiration of unrecognized tax benefits	(0.32)	(34.63)
Adjustments from prior years and other adjustments	(5.04)	39.97
Non-deductible and other items	(2.67)	3.03
Foreign subsidiary subject to different tax rates	0.01	0.18
	(5.01)	13.83
Effective tax rate	21.49	40.37

c) Deferred income tax assets

Deferred income tax assets, representing deductible temporary differences, tax loss carry-forwards and non-refundable unused tax credits, have been recognized to the extent that it is probable that sufficient taxable profits will be available to allow the assets to be recovered.

The components of the deferred income tax assets are as follows:

	July 31, 2021	July 31, 2020
	\$	\$
Research and development expenditures pool	737,319	884,294
Investment tax credits	446,270	530,773
Property, plant and equipment	734,673	710,873
Deferred income tax assets	1,918,262	2,125,940

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

Deferred income tax assets are recognized only to the extent that it is probable that sufficient taxable profits will be available to allow the assets to be recovered. Accordingly, some deferred income tax assets have not been recognized; these unrecognized deferred income tax assets amount to \$3,248,812 (July 31, 2020 - \$3,492,837).

As at July 31, 2021 and 2020, significant components of the Company's unrecognized deferred income tax assets are as follows:

	July 31, 2021	July 31, 2020
	\$	\$
Deferred income tax assets		
Research and development expenditures pool	1,319,388	1,319,388
Investment tax credits	177,466	190,880
Non-capital losses carried forward	1,280,257	1,526,872
Non-deductible reserve	113,065	109,543
Capital loss carry forward	327,665	315,183
Property, plant and equipment	30,971	30,971
	<u>3,248,812</u>	<u>3,492,837</u>

d) Other

The Company has accumulated non-capital losses for federal and Québec tax purposes of approximately \$2,912,000 for which no future tax benefit has been recognized in the accounts. These losses may be carried forward and used to reduce taxable income in future years, and will expire as follows:

	\$
2026	321,000
2027	729,000
2028	116,000
2029	198,000
2030	93,000
2031	145,000
Thereafter	1,310,000
	<u>2,912,000</u>

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

July 31, 2021 and 2020

A US subsidiary company has non-capital losses amounting to approximately US\$2,640,000 (CA\$3,290,000) for which no future tax benefit has been recognized in the accounts. These losses may be carried forward and used to reduce taxable income in the United States in future years, and will expire as follows:

	\$
2021	914,000
2022	350,000
2026	14,000
2027	14,000
2028	15,000
2029	15,000
2030	16,000
2031	16,000
2032	15,000
2033	16,000
2034	789,000
2037	97,000
2038	460,000
2039	170,000
2040	389,000
	<u>3,290,000</u>

A US subsidiary company has an unclaimed tax credit of approximately US\$142,000 (CA\$177,000) for which no future tax benefit has been recognized in the accounts. This credit may be carried forward 20 years and used to reduce taxable income in the United States in future years (expiring between 2029 and 2039).

11 Segment information and economic dependence

Reliance on key customers

The Company is highly reliant on sales from a small number of customers. During the year ended July 31, 2021, 68% of its sales derived from its top three customers (July 31, 2020 – 71%).

	July 31, 2021	July 31, 2020
	%	%
Customer A	<u>50</u>	<u>56</u>
Customer B	12	8
Customer C	6	7

Industry

The Company operates in one industry segment: the production and sale of diagnostic products.

IBEX Technologies Inc. / Technologies IBEX Inc.

Consolidated Financial Statements

The following tables summarize the IBEX stock option plan for the year ended July 31, 2021 and the year ended July 31 2020:

	July 31, 2021		July 31, 2020	
	Number of options	Weighted average exercise price \$	Number of options	Weighted average exercise price \$
Beginning balance	1,475,000	0.17	1,645,000	0.20
Granted	-	-	455,000	0.14
Exercised	(50,000)	0.08	-	-
Expired	-	-	(575,000)	0.22
Forfeited	(75,000)	0.20	(50,000)	0.20
Ending balance	1,350,000	0.17	1,475,000	0.17

The following table summarizes the IBEX stock options outstanding as at July 31, 2021:

Options outstanding and currently exercisable			
Exercise prices \$	Number outstanding	Number vested and exercisable	Weighted average remaining contractual life (years)
0.14	455,000	455,000	8.74
0.15	300,000	200,000	7.65
0.20	525,000	525,000	6.64
0.24	70,000	70,000	5.98
	1,350,000	1,250,000	

The Company uses the fair value based method of accounting for its stock options. During the year ended July 31, 2021, no stock options were granted.

During the year ended July 31, 2020, the fair value of the options at an exercise price of \$0.135 was \$52,507. The fair value of the options is estimated as at the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions for the year ended July 31, 2020:

	July 31, 2020
Risk-free interest rate	1.55%
Expected dividend yield	Nil
Expected life of the options	10 years
Expected volatility	89.43%
